

## CALL FOR SERVICES

---

### Tech Consultant for projects under the Customer Protection Program

Dvara Research seeks the services of an independent high-quality tech consultant (with 10 or more years of experience) to join as a member of one or more project teams that are working to create a set of solutions that can progress the objectives of the [Center for Customer Protection](#) under Dvara Research. For this purpose, one or two consultants with domain expertise in dashboard designing, social sector ratings systems, static and dynamic visualizations, tech architecture design and functioning, multi-stakeholder tech systems including government and regulatory systems, core banking systems and customer-management systems, artificial intelligence and machine learning (AI/ML), large language models (LLMs), generative AI, cloud server hosting and maintenance, etc, are sought. The consultants are expected to be self-motivated, creative, curious about deeply understanding problems, and bring solution-mindedness and systems-thinking mindsets to supporting Dvara Research's ambitions while being deftly able to operate within the constraints of each of the projects involved.

Interested individuals can submit the following via email:

- Expression of interest (in some or all the domains listed above)
- Details of skills and experience (in some or all the domains listed above) – including industry or sectors you have worked and for how many years; how many years of experience and how many relevant years of experience in the domains you want to engage with us in
- Indicative pricing
- Detailed CV

Please submit to [communications.dr@dvara.com](mailto:communications.dr@dvara.com), **no later than March 31, 2024**. The email is to be titled 'Response to Call for Services of Tech Consultant'.

Any questions about this **CFS can be directed to Anushree Nekkanti: [anushree.nekkanti@dvara.com](mailto:anushree.nekkanti@dvara.com) via email.**
