

## REQUEST FOR PROPOSALS

### Tech Consultant for projects under the Customer Protection Program

#### Cybersecurity / Scam Prevention

Dvara Research seeks the services of an independent high-quality tech consultant to join us, as a member, on one or more projects that aim to create a set of solutions to advance the objectives of our [Center for Customer Protection](#). We are looking to onboard, one or two consultants with domain expertise in cybersecurity, tech architecture design and functioning, multi-stakeholder tech systems including government and regulatory systems, scam/fraud prevention and detection, for this purpose.

The consultants are expected to be self-motivated, creative and curious about deeply understanding problems in addition to bringing solution-mindedness and systems-thinking mindsets to support Dvara Research's ambitions, while deftly operating within the constraints of each project.

Individuals interested in this RFP must submit their interest, details of experience (in some or all the domains listed above), indicative pricing (and whether this pricing is flexible), recommendation letters if any, for projects completed and CV via email, to the following address: [jobs.research@dvara.com](mailto:jobs.research@dvara.com) , **no later than April 30<sup>th</sup>, 2025**. The subject is to be titled '**Response to RFP for Cybersecurity/Scam Prevention Consultant**'.

Any questions about this **RFP can be directed to Anushree Nekkanti:**

[anushree.nekkanti@dvara.com](mailto:anushree.nekkanti@dvara.com) **via email.**
